Governor J. Mills

1 State house Station, Augusta, Me 04333

**Re: Future Visions Impact on Maine Economy**

Dear Gov. J. Mills

I have asked my many friends and neighbors to support my work with Future Visions Youth Development Programs & that begins with our "New Approach to Reading" program. This work once begun will empower positive change. There is nothing like it anywhere. It brings both solutions and answers. It sits currently in your Maine Office of Innovation and Futures with Comm. H. Pingree. The first step to our Future Visions Youth Development, Inc. Program is waiting there & takes 15 minutes. That initiative will support your goals to recover the Maine Economy. This work is that powerful.

With the Answer Sheet & 15 minutes of Classroom Time---

At this moment, the important part is that the information needed for the Maine.gov Children's Cabinet reaches them to review this work. Then we move forward & faster into all Maine workforce & impact Maine Workforce growth by leaps and bounds. This step begins in Schools. The first step lies in a (1) page Answer Sheet provided to Ms. K. Poulin in that Office of Innovation and Futures. We wait currently for the next appointment time which has been delayed. This cannot wait to be effective for Maine skilled labor critical needs.

We suggest you want to see this unique data soon to move this forward faster and Save our Kids; bring Equality in Learning into ALL Classrooms; to Save a Nations Public Schools ,and; to broaden our younger Workforce base. Please review this matter post haste for this SY19-20. Thank you.

I, \_\_\_\_\_ support this FVYD program and the great work of Deborah Parker, Pres of FVYD to bring Equality to Maine. Please review that few documents she has provided to that Office of Innovation & Futures.

Sincerely,

*Deborah Parker*
